

Larry Reynolds

Digital Product Design & Leadership

Portland, OR (Remote) | 503-475-7438 | larryjr.design@gmail.com | larryjr.design | [LinkedIn](#)

Product designer and design leader who has built or matured a design system in every role, across ecommerce, consumer genetics, DTC, B2B SaaS, and mobile. Works end to end, from research and information architecture through interaction design, prototyping, and implementation.

CORE SKILLS

Product & UX: End-to-end product design, user research and usability testing, information architecture, interaction design, design systems, onboarding and activation, subscription and ecommerce UX, accessibility

AI & Prototyping: Figma, Claude, Cursor, AI-assisted design workflows, functional prototyping, design tokens, Tailwind, React, GitHub

Leadership: Team leadership and mentorship, design direction and critique, cross-functional facilitation, roadmapping, stakeholder alignment, executive communication

EXPERIENCE

Fractional Head of Design (Remote) Jun 2026 to Sep 2026

The Pattern

- Designed the interaction model for the app's core personal experience during a mobile app rebuild.
- Built the design token foundation across Figma, the component library, and code.

Principal Product Experience Designer (Remote) Feb 2024 to May 2026

G2

- G2 Solutions:** Designed and launched the seller Solutions framework, contributing to \$3M in attributed revenue and a 20% lift in buyer engagement.
- Elevate Design System:** Led a cross-functional rebuild unifying product, brand, and engineering on one component foundation.
- Introduced inline editing and AI-generated draft states, which other squads adopted and extended without being asked.
- AI-First Vision:** Co-developed speculative work exploring generative UI, onboarding orchestration, and conversational workflows.

Head of Product Design (Remote) Oct 2022 to Sep 2023

PetPlate

- Led the redesign of onboarding, subscription management, retention, and ecommerce on a consumer DTC platform.
- Mentored designers and matured design system practice across product, engineering, and marketing.

Director, Product Design (Hybrid, Portland, OR) Nov 2019 to Oct 2022

Wisdom Panel (by Mars Petcare)

- Led a platform transformation that lifted NPS from roughly 45 to 76, with 94% of customers engaging with their results within 30 days.
- Directed scalable design systems and UX foundations improving consistency, accessibility, and collaboration.
- Translated complex genetic and health science into approachable consumer experiences.

Lead Product Designer (On-Site, Portland, OR) May 2016 to Nov 2019

Vacasa

- Led design for Vacasa's first native consumer app, contributing to a 9-point gain in guest NPS.
- Established design system practices across web and native products and led design through the 2018 rebrand.

EDUCATION & CERTIFICATIONS

BS, Multimedia & Web Design, Art Institute of Portland, High Honors | **Design Thinking Certificate**, IDEO U
