

Larry Reynolds

Principal Product Designer

Portland, OR (Remote) | 503-475-7438 | larryjr.design@gmail.com | larryjr.design | [LinkedIn](#)

Design systems leader who has built or matured a design system in every role, across ecommerce, consumer, B2B SaaS, and mobile. Combines hands-on craft with cross-functional leadership, team development, and systems-level product thinking. Looking to lead a team doing foundational platform work.

CORE SKILLS

Product & UX: Design systems, Systems thinking, Information architecture, Workflow orchestration

AI & Prototyping: AI-assisted prototyping, Functional prototyping, Design token pipelines, Figma plugin development

Leadership: Team development, Cross-functional facilitation, Stakeholder alignment, Executive communication

EXPERIENCE

Fractional Head of Design (Remote) The Pattern

Jun 2026 to Sep 2026

- Designed the interaction model for the app's core personal experience during a mobile app rebuild.
- Built the design token foundation across Figma, the component library, and code.

Principal Product Experience Designer (Remote) G2

Feb 2024 to May 2026

- G2 Solutions:** Designed and launched the seller Solutions framework, contributing to \$3M attributed revenue and a 20% increase in buyer engagement.
- Elevate Design System:** Spearheaded a cross-functional rebuild unifying product, brand, and engineering around scalable component architecture.
- Introduced inline editing and AI-generated draft states, which other squads adopted and extended without being asked.
- AI-First Vision:** Co-developed speculative product work exploring generative UI, onboarding orchestration, and conversational workflows.

Head of Product Design (Remote) PetPlate

Oct 2022 to Sep 2023

- Led product design across onboarding, subscription management, retention, and ecommerce, maturing team processes and design system practices.
- Mentored designers and elevated design quality, strategic thinking, and cross-functional collaboration.

Director, Product Design (Hybrid, Portland, OR) Wisdom Panel

Nov 2019 to Oct 2022

- Led a platform transformation that lifted NPS from roughly 45 to 76, with 94% of customers engaging with results within 30 days.
- Directed scalable design systems and UX foundations improving consistency, accessibility, and cross-functional collaboration.
- Translated complex genetic and health science into approachable consumer experiences.

Lead Product Designer (On-Site, Portland, OR) Vacasa

May 2016 to Nov 2019

- Led design for Vacasa's first native consumer app, contributing to a 9-point guest NPS gain and reduced support volume.
- Established foundational design system practices across web and native products.
